

# Goals

Consistent with the mission, vision, values, and bylaws of Lincoln Memorial University, sanctions are and should be designed to support the learning environment through the achievement of the following goals:

1. **To Reestablish Order and Repair the Harm:** This involves considering the common good, and sometimes may necessitate the temporary or permanent removal of the student from the University community
2. **To Reimburse and/or Restore the Student:** This involves returning the student to good standing within the University community, provided the safety of the community is not jeopardized by the student's presence; and/or to Reimburse the community for costs that may be associated with address in a situation
3. **To Reflect:** This allows the student to think about their actions and the impact that their actions may have had upon themselves, others, and the University community.
